Professional Summary

I am an AI, Machine Learning, and Computer Vision developer with strong hands-on experience in python and deep learning frameworks. I specialize in building intelligent systems for image processing, automation, and data-driven problem solving. I have a solid foundation in algorithms, model training, and optimization, and i am continuously enhancing my skills in modern AI technologies to deliver practical, real-world solutions

Projects

Fake News Detection · Dec 2026 - Dec 2026

https://github.com/protech-sukalpa-7/Fake-News-Detection

Skill

- Python Programing
- Natural Language Processing
- Machine learning algorithms

Face Emotion Recognize System · Dec 2026 - Dec 2026

https://github.com/protech-sukalpa-7/human-emotion-detector/blob/main/realtimedetection.py

skill

- Python Programing
- Computer Vision
- Deep Learning(CNN)

Education

10+2nd · Pure Science · Asadtala Binode Vidyapith 7.6 GPA · Jan 2022 - Apr 2024

Bachelor of technology · Computer Science · 8.34 CGPA · Jun 2024 - Jun 2028
Swami Vivekananda University

Skills

Python c c++

Data Analysis & Handling

Numpy pandas matplotlib

Deep learning

TensorFlow/Keras

Computer Vision

Opencv

Certificates

Oracle Cloud Infrastructure 2025 certified Generative AI professional · 2025
Oracle

Oracle Cloud Infrastructure 2025 certified AI foundation associate · Oracle 2025

HP ai for Beginners · HP 2025

SQL · Infosys 2026

Extra-Curricular Activities

self-driven learner in AI, Machine Learning, and Computer vision with a strong focus on project-based learning.
Developed and deployed multiple ML and CV applications using python and streamlit
Actively explore new tools, libraries, and techniques through continuous practice and experimentation
